What is the lowest grade your group will be satisfied with?

Our agreed time-management strategy will be to:

- A. work well ahead of deadlines
- B. Clear communication
- C. Supportive environment
- D. Building trust with the other team members

Describe how you will handle your team leadership

Devon Cesca: Proven to have an extraordinarily even distribution of all attributes. This, combined with his pleasant and engaging "people person" demeanor, made him an excellent candidate for the Teamwork position. This position necessitates adaptability, cooperation, and diplomacy, all of which he excels at.

How do you plan to handle the situation if someone does not meet expectations? Has everyone agreed to this strategy?

We anticipate some snags and conflicts within our group, like with any other team or group, at some time throughout the semester. Differences of opinion, timetables that don't always match, and other inconsistencies are just a few of the potential issues. However, we want to work hard at all times to guarantee that any possible conflicts among members are quickly worked out, discussed, and resolved.
