

Group 2

Dr. Mejias

ITSC 3155

Fall 2021

Project Ideas:

Team Name: *The Unicorn With a FAANG*

Murtadha Marzouq

Parker Randolph

Devon Cesca

Joshua Rizo

GROUP REPO:

<https://github.com/MurtadhaM/ITSC-3155/tree/main/Final%20Project>

List the source of and **describe** at least 4 potential data sets:

{ADD ANSWER HERE}

1. Querying the City Current news: [MCMap Date](#)
2. Querying the City's climate: [National Weather Service](#)
3. UN Travel Advisory: United [Nation's Advisory Notice](#)
4. Query the City's airport radar: [Flight Radar](#)

Identify who your customer/s would be:

1. Tourists and business professionals.
2. Students who are moving to a new city for education
3. Immigrants transitioning from one country to another

Describe the problem that each proposed project solves and justify its need

Problem	Why it is important
Traveling while on exciting, it requires planning and preparation that are often prohibitive to middle-class America	Our product will assist your travels in focusing on sharing moments with other people why we plan, prepare, and educate you before your plane lands.
Be able to search for popular businesses in the area that you are traveling to.	Both language barriers and lack of exposure to different cultures can result in people overgoing traveling
This project was born out of a sense of need to make travel more accessible to more people and to help people navigate	This project will help people get over language and cultural barriers

the globe without feeling afraid or unprepared.	
-------------------------------------------------	--

State the product vision and how your web-based project would be useful to society

Gemini is for the person who wants to forget the hassle of traveling. Gemini is a Traveling website that allows you to receive information from trusted sources to assist with travel. Unlike Open Data, we provide a visual representation that is easy to use and the website will be open source for the public to edit and use.

Identify the major features of each of the proposed projects.:

- Be able to search for popular businesses in the area that you are traveling to.
 - Be able to learn essential phrases on the fly.
-
